Professional Summary

Software Development Engineer with experience in Java and Spring modernization, application security, Kubernetes-based delivery, and generative AI products. Builds backend automation and context-aware AI systems using Python, Java, Azure AI Foundry, RAG, MCP, and modern cloud tooling.

Experience

Software Development Engineer January 2025 – Present
Amadeus Software Labs *Pune, India*

- Investigated and fixed application-security issues identified through Black Duck, Checkmarx, and penetration testing.
- Built ContX AI, a context-aware campaign application that uses guest, property, booking, audience, and brand context to generate personalized marketing content with Python, React, Azure AI Foundry, MJML, and REST APIs.
- Applied AI-assisted development across four Java modernization initiatives covering Java 17, Spring 6, Spring Boot 3, and Core and Loyalty dependency upgrades.
- Fixed a customer-reported stability defect in the currency exchange-rate synchronization service.
- Designed and documented an AI Skills Toolkit for Rally, Jenkins, Kubernetes, and knowledge-retrieval workflows.

Technical Skills

Languages: Java, Python, SQL
Frameworks: Spring Boot, React, LangChain, Streamlit
Databases / AI: ChromaDB, Azure OpenAI, Azure AI Foundry, RAG, Meta-RAG
Tools / Platforms: Git, Jenkins, Kubernetes, Helm, Splunk, Black Duck, Checkmarx, Azure

Projects

GMS Knowledge Bot | *Python, LangChain, Azure OpenAI, ChromaDB, Streamlit* 2025

- Built a two-LLM Meta-RAG assistant that classifies question intent and adjusts retrieval depth, generation settings, token budget, and prompts for each query.
- Created an ingestion pipeline that preserved tables and navigation metadata and produced 86 normalized documents for vector-store ingestion.

Black Duck Container Image Security Scanner | *Python, ACR, Podman, REST APIs* 2025

- Automated container-image retrieval, Black Duck scan submission, result polling, and Teams notifications; packaged the application as a Windows executable.

Certifications & Achievements

- **Claude Certified Architect, Foundations** – Anthropic
- Solved 1,000+ LeetCode problems; GATE Qualified (2023).
- **Technical Club Member:** Led the planning and execution of multiple technical events, contributing to the growth of the college's tech community.

Education

Bachelor of Technology in Computer Science and Engineering (AI and ML) August 2021 – July 2025
RCOEM Nagpur *Nagpur, India*

- CGPA: 8.23/10
- **Relevant Coursework:** Object-Oriented Programming (Java), Computer Networks, Operating Systems, Database Management Systems, Machine Learning, Deep Learning (Python), Neural Networks, Natural Language Processing, Digital Image Processing.
